

# ANGLES

## MISSION STATEMENT

Custom Framing means high quality, not high expense. Through solid work ethics, artistic expression and a firm belief in excellence, Angles Custom Framing strives to provide every customer with a high quality, artistic and personalized framing experience for all artwork needs.

Angles is a full service picture framing company that serves both residential and commercial clients and offers a full line of mouldings, both wood and metal, as well as decorative matting, dry mounting and laminating, conservation and museum framing services. Each frame is a work of art, and each client is treated with 100% personal attention.

# Cornering the market on custom framing...

Excellence isn't a destination, it's a journey. Angles Custom Framing embodies the core values of superior service, exquisite quality, and artistic expression. We provide a product and service that in and of itself is a work of art. We believe what you hang on your walls is a reflection of who you are, where you have been or what you love. Whether it is in business, in home, or in between... make sure you Frame your life accordingly.

*Invitations, old family treasures and anything else you would like us to frame...nothing is impossible!*

## **Personal Attention**

We will meet with you in our shop for a private consultation, or we can come to your home or office to review your framing needs and discuss how we can best serve you. We pride ourselves on our detailed personal attention to every client.

## **No Retail Lines**

No one enjoys running up and down aisles, or having the wait in lines for some attention from a shop keeper. At Angles, we make shopping for all your framing needs simple and convenient.

## **Competitive pricing**

Just because it's quality and just because it's customized, doesn't mean it's expensive. Angles is very competitive in our pricing... you never have to worry that you are spending MORE money for quality and service. We do much more than our competition but we don't charge you more to do it.

## **Discounted kits for students and artists**

Part of our mission is to support the artist community here in Frederick. We have created affordable and exciting framing kits for students and artists to enjoy.

## **Free local pick-up and delivery services**

Service, service service. We are happy to come to your home or office to pick up a framing project and then drop it off when we are done. You don't have to drag your artwork around... we will do THAT for you as well.

## **Commercial & Residential framing**

The details matter. Where your artwork is going to hang and what kind of an effect you are trying to create greatly effects how we frame your pieces. We have an eye for both Commercial and Residential framing and we will work with you on each piece and each room to make sure you are happy with the results.

## **All work done in house**

To us, framing is critical to the overall effect of any décor. It isn't a construction project, it isn't something we would "farm out". Each piece we bring into our studios is handled directly by our Framing Artist. Each frame we create is in and of itself a work of art.

## **Both basic and conservation framing services offered !**
